ENVIRONMENTAL POLICY

M&D Foundations is a leading UK provider of specialist piled solutions for problematic ground conditions. We are committed to providing our clients with the most suitable piled solutions to satisfy each site's specific requirements, delivered professionally, economically and within the timescales stated.

We recognise our responsibility to also safeguard the environment and take positive steps to minimise the environmental impacts of our day to day business operations.

Our commitment is to:

- Establish, maintain and continually improve our Environmental Management System that complies with the requirements of BS EN ISO 14001
- Comply with applicable legislation, regulations and industry codes of practice and seek to implement good practice
- Monitor and continually improve our environmental performance
- Integrate environmental management best practice into our business operations
- Manage our business operations to prevent pollution
- Communicate the environmental aims and objectives of the company to all staff, clients and other external stakeholders
